Elastic adjustable back.

Velcro flap in the top that can be removed.

Trouser belt loop attachment.

Baton in place.

Channels for radio wires.

Holder for an identity card

Place for the distraction grenade holder.

3 closures on the front to sit tight and still when fully loaded. Can be pushed into the vest to be hidden.

Inside compartment with zipper.

Inside pistol compartment on both sides.

2 outside elastic compartments and 4 inside elastic compartments with top opening for SMG or 5,56 magazines, baton, flash lights etc.

3 back & side outside elastic compartments and 6 inside elastic compartments with top and bottom opening for SMG or 5,56 magazines, baton, flash lights etc.

Velcro flap in the top and bottom that can be removed.

The holder for distraction grenades is attached with Velcro. Attach the tab on the back of the pocket on the vest. Fold down the distraction grenade holder so it is aligned with the Velcro on the outside of the pocket.

Check so it sits correctly. Fold up the tab in the bottom of the holder.

If you carry normal grenades put them in the pocket and secure them with the Velcro tab.

Some pockets in the side and back can be accessed and the flap can then be attached in the bottom. Fold the Velcro piece and push it through the 10 mm band in the bottom of the vest.

Fold back the Velcro and attach it on the webbing. Fold up, over the pocket and close it.

The flap can also be attached in the top of the back pockets.

The magazine pouch open with bottom access.

On the inside, on each side of the vest a pistol compartment is placed. The pistol is secured with a band with Velcro that opens when you push your hand into the pocket and grasp the pistol.

The baton holder can be attached on the left or on the right side of the vest. The elastic trouser belt tabs takes some of the pressure of the neck when you carry the vest. Attach them around your belt.
