The bottom of the radio pocket can be opened so you can change the battery without removing the radio from the pouch.

The radio is secured with an elastic string that makes it possible to pull up the radio and change the channel.

The antenna can be tucked in under the panel.

Radio cables can be tucked into the channels on the front and back of the vest.

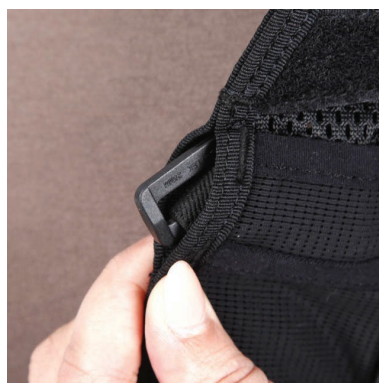

The baton holder adjusted low.

The baton holder can be adjusted in height to fit the individual needs of each user. The picture shows it in a high position.

The bottom flap on the flashlight pocket can be detached and used on the left side of the vest if needed.

The square rings for the front closure can be tucked into the vest if you don't use them.

The pistol can be carried in the pocket on the left or right side of the inside of the vest. It is secured with a Velcro tab.
