

## FEATURES

- \* A very lightweight and tight harness for minimal covert equipment carry
- \* For 1 radio, 1 CS spray can and a telescopic baton
- \* The harness is small and thin and is carried so it cannot be seen while using an open jacket or shirt
- \* The harness is comfortable despite its narrow shoulder straps. The back strap and the belt straps relieve pressure from your neck.
- \* You can place all your equipment in the harness instead of in your trouser and jacket pockets. All your equipment will be stored in one place and will be easily accessible
- \* The harness is easy to put on and take off
- \* Back strap stops the harness sliding forward
- \* On the shoulder strap a microphone can be attached

Fits in:

Radio, OC spray and telescopic baton
